

The following Assessments Services are available through Business Risk Assessment Limited.

Workstation Risk Assessments

An Independent Assessment Service by Business Risk Assessment Limited

Our Workstation Risk Assessment looks at the way your staff is seated while using computers or other equipment during their working day. This assessment is an Independent view at the level of risk your staff is putting themselves under.

The assessment is designed in such a way as to address the issues that are raised through incorrect seating by making adjustments and educating on why change is necessary. email chris@riskassessment.co.nz for more information

Annual Office Health & Safety Hazard Review

An Independent Assessment Service by Business Risk Assessment Limited

This is a detailed examination of your Health & Safety Policy and Processes including a 70 point check list. We test the robustness of your Health & Safety Policy and find any weakness before you are exposed to significant OSH penalties' should your system fail during a live emergency. This assessment tells you accurately just how robust your Health & Safety Policy is. What you think is happening may not be what is happening at all. email chris@riskassessment.co.nz for more information
